

# FEBRUARY 2, 2021

## **The County of San Diego's COVID-19 Vaccine Clinical Advisory Group discussed and approved the following recommendations on 02/02/21:**

- In accordance with county policy, and to promote equity and expediency, the advisory committee supports the following guidance to support community vaccinators:
  - Clear descriptions of groups eligible for vaccination, using simple language and examples, to help all San Diegans clearly understand their eligibility status.
  - Vaccinators should have systems in place to support their good-faith efforts to ensure those referred for vaccination fall into clearly defined groups prior to scheduling vaccines.
  - To ensure equitable access to vaccination, it is acceptable for these good faith efforts to include verbal attestation from the patient that they meet the criteria when other documentation is not available.
